

Super~Conscious

Brand Systems.

Identity, voice, visual system, and sales
enablement. Built once, used everywhere.

WHAT IT IS

The operating system a business runs on.

Brand Systems is the foundational work: identity, voice, visual system, deck templates, sales enablement tools, and campaign concepts. Built once, it accelerates everything that comes after. Every asset you produce gets faster, more consistent, and more credible.

It's not a one-off project. It's infrastructure. The design system handles the heavy lifting. The voice guide sets the standard. The deck template system means your team ships polished work without starting from scratch.

Look credible before you speak.

WHEN YOU NEED IT

When you're entering a new market, pitching to enterprise buyers, or any time first impressions determine whether you get a second meeting.

BEFORE

Mismatched logos, inconsistent colors, and a deck built from a template. Prospects form a judgment before you get to slide three.

AFTER

Every touchpoint looks like it came from the same place: website, deck, email signature, one-pager. Trust is established before the conversation starts.

THE NUMBERS

BRAND CONSISTENCY

+10–20% revenue lift (Lucidpress)

PROSPECT-TO-MEETING CONVERSION

+15–25%

FIRST-IMPRESSION TRUST

3–4× more likely to achieve strong visibility

Close bigger deals.

WHEN YOU NEED IT

When you're moving upmarket, selling to procurement committees, or competing against larger, better-funded rivals.

BEFORE

Deals lost not because the product was wrong but because the materials didn't match the ask. Decision-makers feel uncertain.

AFTER

Sales reps show up with materials that reinforce the value of what they're selling. Buyers feel confident recommending you internally.

THE NUMBERS

WIN RATE
+15–20% with strong sales enablement (Salesforce)

AVERAGE DEAL SIZE
+10–15% ACV lift

SALES CYCLE LENGTH
20–30% shorter with polished materials

Raise with confidence.

WHEN YOU NEED IT

Any time you're in a raise: seed, Series A, or beyond. The quality of your materials reflects directly on the quality of your thinking.

BEFORE

A deck built in a hurry the week before investor meetings. Inconsistent visuals. A story that doesn't flow. Investors pick up on it.

AFTER

Materials that look like they belong in the room. A narrative that's been crafted, not assembled. Investors spend time on the content, not the presentation.

THE NUMBERS

MEETING-TO-TERM-SHEET RATE

Significant lift with top-quartile design

FOLLOW-ON INVESTOR MEETINGS

2× more for top-quartile decks

DECK ENGAGEMENT TIME

+30–50% (time on content, not layout)

World Within

World Within is a mission-driven platform building a fairer future through capital, culture, and community. They fund innovative companies, produce powerful stories, and convene communities to spark systems change that serves people and planet alike.

BRAND SYSTEM

Built a brand with the emotional weight needed to carry a mission-driven platform.

CONTENT PROGRAM

Developed a content program to convert awareness into community and donations.

Photon

Photon Health is a digital prescription platform that gives patients more choice, providers more efficiency, and healthcare teams more control. We partnered with Photon to lead a full rebrand and redesign of their marketing site, helping reposition them as a modern, patient-first alternative to legacy e-prescribing systems. The new brand balances technical credibility with human clarity, making Photon feel as intuitive and transparent as the experience it delivers.

BRAND SYSTEM

Built a credible, design-led brand for a platform rewriting the prescription network.

DIGITAL PRODUCT

Designed the product UI for a system that moves prescriptions faster and more cleanly.

Transcend

Transcend Therapeutics is a neuroscience-focused biotech company developing breakthrough treatments for PTSD and other neuropsychiatric conditions. With a science-first approach and a strong clinical pipeline, Transcend needed a brand that could communicate credibility to investors, clarity to partners, and purpose to prospective hires. We worked closely with their founding team to build a cohesive brand identity, develop fundraising and recruitment materials, and design a website that brought their mission to life.

BRAND SYSTEM

Crafted a breakthrough neuroscience brand ready for clinical and consumer markets.

Gigs

Gigs is a job platform built to make finding local gig work seamless, efficient, and empowering. With an intuitive interface, Gigs provides clear job descriptions, pay comparisons, and reviews from other workers, plus smart filters and helpful resources to make the search simple and effective. Whether you're after flexibility, extra income, or your next big opportunity, Gigs helps you quickly connect with the best options in your area.

BRAND SYSTEM

Built a trust-first brand for a platform professionalizing the gig economy.

Industry Standard

Industry Standard is a direct-to-consumer denim brand known for its clean fits, accessible pricing, and everyday essentials. We partnered with the team to lead a full-scale rebrand that honored the simplicity of the original while sharpening every detail for a more elevated and enduring presence. From custom hardware and refreshed typography to updated packaging, product photography, and a redesigned website, we helped evolve the brand’s visual and verbal identity across every touchpoint.

BRAND SYSTEM
Rebuilt a denim brand identity from the ground up – visual system, voice, and all.

CONTENT PROGRAM
Launched an organic content program to grow community and drive repeat purchase.

Wonderwerk

Wonderwerk makes the dreamwork. Issamu and Andrew came to us with a House of Fermentation: natural California wines made for friends, music, and whatever comes next. We rebuilt the identity to match that energy, easy-drinking and anti-pretentious without losing the seriousness of the craft, then built a content program around the bottles, the trade, and the social channels that keep the party moving.

BRAND SYSTEM

Gave a California wellness brand a visual identity with real energy and edge.

Novi

We helped Novi define its brand foundation and positioning. Now we produce ongoing content that earns attention and builds authority in the CPG commerce space.

CONTENT PROGRAM

Produced ongoing content that earns attention and builds authority in the CPG commerce space.

Smallhold

Smallhold is a mushroom company redefining how specialty produce is grown, distributed, and enjoyed, with sustainable, tech-enabled farms placed directly in urban environments. We’ve partnered with Smallhold since day one, helping shape the brand from its earliest stages to its nationwide retail success. Our work has spanned every step of their journey: developing the original brand identity and packaging system, designing investor decks, marketing content, product storytelling, and digital experiences.

BRAND SYSTEM

Established mushroom as a premium, culturally relevant ingredient through brand-building.

CONTENT PROGRAM

Built a content engine that made Smallhold a household name in specialty produce.

Banzen

Banzen is a cannabis dispensary built on the idea that cannabis can be premium, approachable, and rooted in community. Inspired by the role of a trail guide, Banzen acts as a specialist who helps customers navigate with confidence. They partnered with us to build a brand and website that brought this perspective to life while setting them apart from competitors.

BRAND SYSTEM

Built a dispensary brand that makes cannabis feel premium, approachable, and local.

Print Parlor

Print Parlor is a custom merch company focused on making high-quality, design-led products for brands, artists, and everyday creators. We partnered with the team to build a brand that matched the craft of their work: thoughtful, elevated, and built to last. From a bold visual identity to a clean, conversion-focused website, we helped shape a business that treats merch like a creative medium, not just a transaction.

BRAND SYSTEM

Repositioned a merch company as a design-led business with an identity to match.

DIGITAL PRODUCT

Built a clean, conversion-focused site that turned browsing into buying.

TBT

TBT Pharma is a clinical-stage dermatology company developing novel topical therapies by repurposing proven treatments. We partnered with the founding team to bring clarity and credibility to their early-stage story: developing a brand identity, investor deck, and marketing site that positioned TBT as a serious player in the clinical dermatology space.

TBT PHARMA

BRAND SYSTEM

Brought scientific credibility to a clinical-stage dermatology company through brand design.

Yura

YURA is an AI-powered healthcare benefits platform helping employers reduce costs while empowering employees to make smarter care decisions. We partnered with YURA from the ground up, working across product development, branding, and marketing to help bring their vision to life. From shaping the product UX to defining the brand identity and building out investor materials, we acted as an embedded creative and strategic partner during their earliest stages.

BRAND SYSTEM
Designed a brand that makes AI-powered benefits feel approachable and trustworthy.

DIGITAL PRODUCT
Built a digital benefits platform that changes how employees access their coverage.

yura ai

Arbitrum — Rebrand

Arbitrum is the leading Ethereum Layer 2 network. When we came in, the technology was years ahead of its category but the brand was not yet matched to it. We rebuilt the visual language from the ground up: identity system, color, type, illustration, and motion. The rebrand had to feel as confident, technical, and forward-looking as the product, and flexible enough to live across every surface the team would need to grow into.

BRAND SYSTEM

Built a brand identity ambitious enough for the leading Ethereum Layer 2.
