

Super~Conscious

Creative Production Catalog.

27 packages, 106 services. Content
Programs, Brand Systems, and Digital
Products.

Built from the briefs we hear most often.

These 27 packages span content programs, brand systems, and digital products. Each starts with a proven scope, a clear goal, and a defined set of deliverables. From there, the work is shaped around your market, your audience, and what you are trying to accomplish.

THE GOAL

Each package targets a specific funnel stage: awareness, demand, conversion, or retention. The goal drives the scope.

THE DELIVERABLES

A fixed set of assets mapped to where they serve your buyer in the journey. Format and volume adjust to fit your program.

THE CADENCE

A recommended rhythm for when and how often to run the program: monthly retainer, one-time engagement, or per campaign cycle.

What's inside.

Content Programs	→	Brand Systems	→	Digital Products	→

Content Programs

Demand generation, lead capture, retention, and awareness. Delivered as fixed-scope production programs.

12 PACKAGES

55 SERVICES

Packages

Fixed-scope bundles. Every deliverable, timeline, and price is defined before work starts. No hourly billing, no scope creep.

Services

Individual deliverables priced by the hours each role contributes. Add them to an existing package or book them on their own.

A note on media spend.

Six of these packages include a media spend recommendation. This is separate from the production fee and covers the cost of distributing the work through paid channels. We scope and build the creative. You control the budget. The figures below are based on what we see across client work in both B2B and B2C programs, not published platform benchmarks.

OBJECTIVE TYPE	MEDIA : CREATIVE	WHY
ABM / Targeted	~0.5 : 1	PRECISE TARGETING REDUCES WASTED SPEND
Demand gen / Conversion	~1 : 1	MATCH WHAT YOU SPENT ON CREATIVE
Awareness / Launch	~2 : 1+	REACH IS THE OBJECTIVE, INVEST ACCORDINGLY

These are directional guidelines, not fixed rules. Ratios shift based on audience size, market maturity, and how much existing brand equity you have. We do not manage ad accounts by default. Campaign setup and ongoing management can be added as a separate scope.

PLATFORM GUIDANCE

LINKEDIN	Demand gen, ABM, retargeting	B2B \$3,000-\$10,000 / mo B2C -
META	Awareness, lead gen, retargeting	B2B \$1,000-\$5,000 / mo B2C \$500-\$3,000 / mo
TIKTOK	Awareness, reach, creator-led content	B2B - B2C \$500-\$2,500 / mo
YOUTUBE	Brand film distribution, reach campaigns	B2B \$1,500-\$5,000 / mo B2C \$1,000-\$4,000 / mo
PROGRAMMATIC	Display, ABM, named account targeting	B2B \$3,000-\$8,000 / mo B2C \$1,500-\$5,000 / mo

Ranges are estimates based on campaigns across both B2B and B2C programs. Actual minimums vary by platform, audience size, and objective.

PACKAGES THAT RECOMMEND SPEND

- ALWAYS-ON DEMAND ENGINE
- CONVERSION ENGINE
- LEAD GEN ENGINE
- AWARENESS CAMPAIGN
- ABM SALES TOOLKIT
- GTM LAUNCH PACK

Production tiers.

Every video deliverable is scoped against one of these seven tiers. The tier determines creative hours across direction, editing, and motion. Shoot logistics, crew, location, and talent are quoted separately from the production fee.

Multipliers are relative to Studio / produced as the 1.0x baseline. Services that include a shoot flag will carry additional line items for physical production costs.

TIER	WHAT IT MEANS	SHOOT	CREATIVE	SCALE
Repurpose	No new production. Recut and adapt existing footage.	NO		0.3x
Self-shot / UGC	Client captures on phone or webcam. We direct and edit.	NO		0.4x
Run-and-gun	One operator, one camera, minimal setup.	YES		0.65x
Studio / produced BASELINE	Full crew, lighting, studio or location. Our baseline.	YES		1x
Hybrid	A produced shoot combined with significant motion or 3D work.	YES		1.2x
Animation	No shoot. 2D motion and illustration led.	NO		1.1x
3D / premium	3D-led, or high-end live action with full production.	YES		1.4x

Repurpose and UGC tiers apply only when existing footage is available or client-captured. Run-and-gun and above require a scheduled shoot day. Hybrid and 3D tiers involve both production and significant post-production teams working in parallel.
